

Enchanted Teddy Bear Cottage

by Quadira

Once upon a time, I happened upon a Teddy Bear Picnic in the woods, and was invited to sit and join the party. With a little persuasion, a few of the Teddy Bears present and some others in their clan agreed to be featured in this little story.

Welcome to the Enchanted Teddy Bear Cottage!

William & Rose

William and Rose are the Clan Elders and have been married for many years. They guide their family members with love, compassion and wisdom. They enjoy spending private time together as well as entertaining family and friends. Here is their wedding picture. They look very happy together!

Cottage Kitchen

The Cottage Kitchen is the heart of the home, where meals and breads are turned out daily.

Rose Bear has just stepped outside to work on her knitting while the bread rises atop the Aga. I'm sure it will be quite delicious, spread with honey or blackberry jam!

Rose Bear

Rose Bear is an expert in natural history. She also loves to play Scrabble and is looking forward to the games night. Right now she is sitting on the porch of the cottage with her knitting while she waits for the bread to rise atop the Aga in the kitchen. Such a peaceful day!

William Bear

William Bear is the beekeeper in the family. We see him harvesting golden honey from the hives that stand on the edge of the meadow, reached by a winding path from the Wild Cottage Garden.

William also loves to read and play games and is an all-around handy-bear.

Amanda Bear

Young Amanda Bear is a dreamer who loves to write poetry. She also enjoys sewing and knitting, playing Scrabble, and sitting in the gardens. She is learning to bake, and enjoys spending time in nature, wandering in the woods and meadows.

Here she is wearing a lovely shawl she made, dreaming up a poem to write in her journal.

Primrose Bear

Primrose Bear has been tending the garden this early morning, cutting flowers for the cottage and enjoying nature. She takes a few minutes here to rest and contemplate the beauty of her garden, while chipmunks play nearby and birds flutter toward the hanging birdhouses that Edward made. The path through the rose arbor leads into the meadow, where William keeps his bees.

Molly Bear

Molly Bear is one of the youngest members of the Cottage Clan, and loves to dress up in her mother's clothes! She wears a kimono and slippers—and a hat that doesn't quite go with her outfit. Will she try on that silk scarf on the vanity?

Theodore Bear

Theodore Bear loves working in the Apothecary, making lotions, potions and other home remedies for the other bears and any creature that needs assistance. Here we see him filling sachets with his signature blend of fragrant herbs and flowers. Who will he give these to?

Edward Bear

Edward Bear is a woodworker who enjoys making furniture for his friends and relations, and building bird houses for his feathered neighbors. He makes most of the furniture in the Cottage.

Edward is currently in the wood shop, sanding another bird house in preparation for painting. So many beautiful bird houses!

Games Night

At last it's Games Night in the Enchanted Teddy Bear Cottage, and many have gathered to play cards or scrabble and enjoy stories and refreshments. What a cozy evening scene!

We leave all the Teddy Bears to their games now.

The End!
